

# Art City Nursing and Rehab

*When was the last time you stopped by our place? A lot has changed! Everything from the New Wood Floor and the 42" Flat Screen TV in the dining room to the Individual Porch-Like Entry to residents rooms.*

*A French café feeling takes over when you enter our Dining Room. Buttery tones of yellow warm the walls, café style curtains and more intimate dining tables invite residents to each meal. The wood floor may be at your feet but it feels like the icing on the cake! Residents are also able to enjoy everything from the news to movies on the large Flat Screen TV hanging on the wall. The food is fabulous and our Dietary Team recently won the Bronze Award from Crandall Corporate Dieticians, a company that guides, certifies and assesses commercial kitchens in facilities throughout the Western United States.*

*As you walk down the halls of our facility, you will find beautiful artwork from the likes of Monet, Rembrandt and local artist Ansel Adams.*

*The doorways to the residents rooms have been framed in to appear as though they were a front door. The nurse's call light is now a porch light and each room has an "address" with their room number. Beautiful shades of green compliment the look,*

*The colorful bulletin boards will invite you to share in the fun experiences our residents have had the opportunity of participating in. You will also find lots of information about upcoming events and activities.*

*If you haven't been to Art City Nursing and Rehab in a while, it's time you stopped by! As we like to say...*

## *"Welcome Home."*

*321 East 800 South Springville, UT 84663 (801)489-9461*
